

Juan Manuel Velez Torres

Frontend Engineer

juanmanuelveleztorres@gmail.com | +491631298337 | [linkedin.com/in/juanmavelez](https://www.linkedin.com/in/juanmavelez)

Summary

Engineer with 5 years of experience building scalable, user-focused web applications. Specializing in JavaScript/TypeScript, frontend architecture, and performance optimization. Experienced in working across the full stack with modern frameworks such as React, Angular, and Node.js. Collaborative and data-driven, with a strong focus on maintainability and business impact.

Skills

- Languages: JavaScript, TypeScript, GO
- Frameworks: React, Angular, Next.js, Node.js
- Tools: Git, Webpack, Docker

Professional Experience

Web Engineer | OneFootball (Berlin)

Oct 2021 – Sep 2025

- Built the main web applications of the company used by more than 20M monthly active users.
- Designed and implemented full-stack solutions using TypeScript, React, Next.js, Node.js and Go. From video platforms and payments to the news side of the company.
- Engineered a video platform from the ground up, decoupling core functionalities into microservices to improve system maintainability and deployment speed.
- Implemented analytics and tracking (Mixpanel) to support data-driven product decisions and workflow optimization.

Software Engineer | Indra (Madrid, Spain)

August 2019 – February 2020

Developed a text-to-voice interaction system using JavaScript and XML.

Systems Engineer | GMV (Madrid, Spain)

October 2018 – May 2019

- Created a web application using PHP, CSS, and MySQL.
- Supported DevOps processes and Docker deployment on Linux servers.
